

Community Resources

As the Coronavirus (COVID-19) situation continues to develop, BHSN understands that now, more than ever, it is important for people to know what resources are available in the community. Here you can find resource contacts available in our service-area counties as well as other online resources to help with the impact of Coronavirus.

For information regarding non-health related resources, please contact the BHSN customer service team at **(518) 563.8000**, Monday - Friday 8:00am - 5:00pm, or email webmaster@bhsn.org. The crisis hotline is also fully functional and can be accessed 24/7 by calling **1.866.5PREVENT (1.866.577.3836)**.
